

User Acceptance Testing (UAT) Template

Date	13 September 2026
Team ID	SWUID2026136950
Project Name	Automated Network Request Management in ServiceNow
Maximum Marks	5 Marks

Project Overview:

Project Name: Automated Network Request Management in ServiceNow

Project Description: A fully automated network request management system built on ServiceNow, covering the complete lifecycle from submission to approval, task fulfillment, closure, and feedback collection. It includes 15 features with dynamic forms, approval workflows, SLA tracking, auto-escalation, notifications, reports, and a dashboard.

Project Version: 1.0.0

Testing Period: 11 September 2026 to 14 September 2026

Testing Scope:

Features to be Tested:

1. Dynamic UI Policies (Firewall, Access, Configuration)
2. Catalog Item Submission
3. Flow Designer Approval Workflow
4. Auto-Create Fulfillment Task
5. Email Notifications (8 types)
6. SLA Definition (4 Hours)
7. Catalog UI Policies
8. Request Cancellation
9. SLA Breach Notification
10. Approval Reminder
11. Auto-Escalation
12. Request Priority Levels
13. Reports (3)
14. Dashboard
15. Feedback Survey

User Stories to be Tested: USN-1 to USN-28 (from Product Backlog)

Testing Environment:

URL/Location: <https://dev181300.service-now.com>

Credentials (if required): admin / ph*V9q1YRhD+

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Dynamic UI Policy — Firewall	1. Open Network Request form 2. Select Request Type = Firewall	Device and Port fields visible + mandatory; Access Level hidden	As expected	Pass
TC-002	Dynamic UI Policy — Access	1. Open form 2. Select Request Type = Access	Access Level visible + mandatory; Device and Port hidden	As expected	Pass
TC-003	Dynamic UI Policy — Configuration	1. Open form 2. Select Request Type = Configuration	Device mandatory; Port optional; Access Level hidden	As expected	Pass
TC-004	Catalog Item Submission	1. Open Service Portal 2. Fill Network Request form 3. Submit	RITM created; flow triggered	As expected	Pass
TC-005	Approval Workflow	1. Impersonate approver 2. Open My Approvals 3. Approve	Approval state = Approved; flow continues	As expected	Pass
TC-006	Task Auto-Creation	1. After approval 2. Navigate to Catalog Tasks	SCTASK created; assigned to Network Team; state = Open	As expected	Pass
TC-007	Task Fulfillment	1. Impersonate engineer 2. Open task 3. Add work notes; set Closed Complete	Task state = Closed Complete	As expected	Pass
TC-008	Auto-Close Requested Item	1. After task closure 2. Open RITM	RITM state = Closed Complete; Approval = Approved	As expected	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-009	Email Notification — Submission	1. Submit request 2. Check emails	Submission email sent to requester	As expected	Pass
TC-010	Email Notification — Approval Required	1. Submit request 2. Check approver emails	Approval email sent with direct link	As expected	Pass
TC-011	Email Notification — Approved/Rejected	1. Approve request 2. Check requester emails	Decision email sent to requester	As expected	Pass
TC-012	Email Notification — Completed	1. Close task 2. Check requester emails	Completion email sent	As expected	Pass
TC-013	SLA Definition	1. Submit request 2. Check Task SLAs	SLA record created; timer tracking	As expected	Pass
TC-014	SLA Breach Notification	1. Set SLA duration to 1 min 2. Wait for breach 3. Check emails	Breach notification sent to manager	As expected	Pass
TC-015	Approval Reminder	1. Submit request 2. Wait 1 hour 3. Check emails	Reminder email sent to approver	As expected	Pass
TC-016	Auto-Escalation	1. Submit request 2. Do not approve within 2 hours 3. Check emails	Escalation email sent to manager	As expected	Pass
TC-017	Request Cancellation	1. Open RITM 2. Click Cancel	Confirmation dialog; state = Cancelled	As expected	Pass
TC-018	Priority Levels	1. Submit request with Priority = High 2. Check RITM	Priority field = 2 - High	As expected	Pass
TC-019	Reports — Volume by State	1. Open Reports list 2. Open Volume by State	Bar chart displays request count per state	As expected	Pass
TC-020	Reports — Task Performance	1. Open Task Performance report	Pie chart displays task distribution	As expected	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-021	Reports — SLA Compliance	1. Open SLA Compliance report	List displays SLA status per request	As expected	Pass
TC-022	Dashboard	1. Open Dashboard 2. Verify widgets	3 widgets display live data	As expected	Pass
TC-023	Feedback Survey	1. Close request 2. Check requester emails	Survey email sent with link	As expected	Pass
TC-024	Access Control	1. Impersonate requester 2. Try to edit RITM	Access denied based on ACL	As expected	Pass
TC-025	End-to-End Workflow	1. Submit → Approve → Task → Close	All 7 flow actions Completed	As expected	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BUG-001	Flow trigger not firing	Submit catalog item; flow not triggered	High	Fixed	Changed trigger table to sc_req_item
BUG-002	UI Policy not hiding mandatory fields	Select Request Type = Access; Device field still visible	Medium	Fixed	Fixed execution order in client script
BUG-003	Duplicate approval notifications	Submit request; two identical approval emails sent	Medium	Fixed	Deleted duplicate notification record
BUG-004	Group reference in global flow	Global flow could not find scoped group	High	Fixed	Created Network Approvers Global group
BUG-005	Escalation flow blocking task creation	Flow stopped at Wait action before task creation	High	Fixed	Restructured flow to prevent blocking

Test Summary:

Total test cases: 25 | Passed: 25 | Failed: 0. Bugs logged: 5 | Fixed: 5 | Open: 0.

Sign-off:

Tester Name: Kharizma
