My Empathy Map

Persona: Kharizma — Network Operations Team Member

Think & Feel

- Why do I have to chase people for approvals?
- I hope this request doesn't get lost in email

- I need better visibility into my own work.
- Am I missing something important?
- I wish there was a standard way to do this.
- How long will this take?

Hear

- "Where is my request status?"
- "Did you get my email?"
- "The approval was sent last week."
- "Can you check if my change is approved?"
- "We need to prepare for the audit next month."
- "Why is this taking so long?"

See

- Inbox flooded with request emails
- Multiple chat threads with no tracking
- Spreadsheets used for manual tracking
- Missing information in requests
- Approvals stuck in email threads
- Team members overloaded with coordination work

Say & Do

- Send reminders for pending approvals
- Manually create and assign tasks
- Follow up with requesters for missing details
- Maintain personal tracking sheets
- Escalate overdue requests manually
- Prepare audit reports from scattered data

Pain

- Frustrated by constant follow-ups
- Overwhelmed by coordination work
- Worried about missing approvals
- No visibility into request status

- Audit preparation takes weeks
- Repetitive manual tasks
- No standard process to follow
- Fear of compliance issues

Gain

- Faster request fulfillment
- Full visibility into request status
- Automated approval tracking
- Standardized process for all requests
- Reduced manual coordination
- Audit-ready records at any time
- More time for actual network work
- Peace of mind during audits
